LOWREY HERITAGE

At Lowrey, we have been listening. What we have learned is that people want a Lowrey Organ today for the same reasons they have always wanted a Lowrey Organ. People have told us that they want an easy-to-play organ that produces great sounds.

The all-new Lowrey Heritage is the direct result of your input. The Heritage utilizes advanced digital technology. For you the player, this means unbelievably authentic musical sounds, a wide variety of fully-orchestrated rhythm accompaniment styles and easy to operate performance features that will make you sound like a pro.

Lowrey's all-new Heritage boasts a selection of 85 fully-orchestrated rhythm patterns. A wonderful assortment of musical styles are available at the touch of a button. Professionally scored Introductions and Endings make you sound great. Lowrey's Rhythm Preset button sets the whole organ up for you. Select a rhythm style, press the Rhythm Preset button and you are ready to play. It is that easy!

Lowrey's Heritage features "Golden Harp" which adds graceful arpeggios to your music. 12 additional Arpeggio sounds are available.

The Heritage, true to the Lowrey tradition, has numerous easy-play features. The Transpose feature lets you change the key you are playing in by simply pressing a button. 10 General Preset buttons make setting-up the Heritage as easy as pressing one button. Music Chord System (MCS) allows you to play multi-finger chords with just one finger. Another easy play feature on the Heritage is Harmony Plus. With Harmony Plus you can select from and play a variety of beautiful melody harmonies with just one finger.

With MCS and Harmony Plus you can sound great and have fun with just one finger from each hand!

Animation on the Heritage adds texture to sounds by adding motion to the tone. Vibra Trem, Chorus and Celeste are featured. Digital Reverb adds depth and resonance to your music.

The built-in Music Recorder on the Heritage lets you record your performances and play them back later. You can save your performances and registrations on diskettes by utilizing the Disk Drive on the Heritage.

The Graphic Mixer on the Heritage lets you customize your sound by controlling the volume of each section of the organ. The Graphic Mixer controls Symphonic, Orchestral, Solo, Bass/Pedal, Orchestration Plus and Lower volumes as well as Digital Reverb and Sustain levels.

Connections on the Heritage include MIDI: IN, OUT, THRU; stereo headphone jack, microphone input jack and stereo input/output connections.
