(LX 510)

## *SONG SUGGESTION LIST*

---

The following pages contain song suggestions for each Rhythm Style.  
Please remember that these are suggestions, not rules.

1. Be sure to change the Tempo to suit your own taste and playing skills. Many times just a Tempo change will be the only thing you need to make a Style perfect for your song. You can even change and vary the amount of accompaniment by selecting one or a combination of the GENIE, ORCH, or ORCH PLUS buttons. You might also try the AUTO BASS 2 or DRUM VARIATION for other versions of the style.
2. For variety, try the songs listed for one style with another style. This change of feel is one of the VARIATION 1 ways that an arranger uses to make an old song sound new again. (*Bye Bye Blues* can be played with any of the styles.)
3. Use the Rhythm Preset for professional sounding registrations. Remember, you can always reach up and change the registration that a Preset chooses. You can even vary the amount of accompaniment by using only one of the two buttons marked GENIE and ORCH PLUS. Do NOT be afraid to experiment and change the settings on the organ. You cannot hurt the organ. If you want to start over, just press the RESET button located on the Lower Keyboard End Block (just to the left of the Power Switch).
4. We at Lowrey think that playing music is even more fun than listening to music. Keep it fun by playing the songs you know and like. Remember, these organs are made to be enjoyed by people of all levels of playing. This means if someone plays with just two fingers and a another plays with ten fingers and two feet, both can have the same joy playing music on a Lowrey organ.

Once again,

THANK YOU for choosing Lowrey.

<b>STYLE:</b>	<b>NAME:</b>	<b>SONG SUGGESTIONS:</b>
